How to Add 'Playing Partners'

1. Click or touch in the 'Player Boxes' above
2. Click or touch '**Add Playing Partner**'
3. Type the person's name in the 'Search Member Name' box and follow the steps.

Why create 'Playing Partners'?

Adding '**Playing Partners**' ensures that the member(s) you are golfing with will be charged or not based on their membership type (including no fees when applicable). It also ensures that they'll receive email confirmations of the booking and helps to make check-in faster at the golf course.

For this example, you will see your name in the first field (e.g. Misty Reyes). Now to **add another player** who is a **Member** click in the Player 2 box and select '**Add Playing Partner**' from the drop down menu.

9. You will now see a screen similar to this:

The booking system allows course members who regularly play golf together to add playing partner favourites. This allows you to book tee-times on behalf of another golfer or group of golfers (i.e. twosomes, threesomes or foursomes).

[Search Club Members](#)

Start typing the name of the Member in the 'Search Member Name' field e.g. I typed in 'Woods' as the last name of the member and the following screen appears:

Name
<input type="checkbox"/> Tiger Woods

You then check the relevant box next to the Member name you need and click SAVE.

10. Once you have saved the 'Member' you then select that person from the 'Player 2' drop down box.
11. Once you save your reservation you should see the following message that your 'Reservation is successful'

12. The purpose of writing this step-by-step guide to booking a tee-time online is to guide **Members** to selecting other 'Members' from the database.

We have had issues recently whereby a member is booked in but because he/she is not selected from the member database, tee-on will treat that person as a 'non-member'. When we check you in at the pro shop, it would show that the member owes money which of course is not correct.
